The Hospital of Central Connecticut Emergency Department Mission Statement

Our mission at The Hospital of Central Connecticut (HCC) Emergency Department is to exceed the expectations of our patients and medical staff by providing outstanding emergency care with efficiency, sensitivity, and compassion, at any time and to anyone who requests care.

Our goal is to make HCC your hospital of choice, not only because we are part of your community, but because we provide excellent medical care. Our number one priority is the care of our patients and their families.

We have compiled this resource guide to provide assistance to our patients and their families. Although we have tried to make it as complete as possible, it is by no means exhaustive, and will be updated periodically. We would appreciate receiving feedback, or any additions or corrections you may have. This guide will also be available through our website; for periodic updates, please check www.nbgh-er.com.

Thank you for allowing us to serve you.

Jeff Finkelstein, MD, FACEP
Chief of Emergency Medicine

Robert G. Flade, RN, MS
Director of Emergency Services
